| Guarantee      | 7 years                                                       |

### IN THE BOX

- 1 × 1 metre silver recessed floor profile
- 1 × opal diffuser
- End caps
- Mounting clips and screws

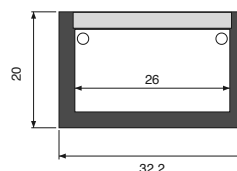

### DESCRIPTION

This 1 metre recessed floor channel takes LED strip or neon flex up to 26mm wide in a 32.2 × 20mm aluminium section. It arrives with an opal cover for a flush finish at floor level.

Set it into paving, decking or a floor threshold so the cover finishes level with the walking surface. The wide internal channel suits neon flex and wide COB strip.

The profile is a mechanical housing, not a seal: it is IP20, so the strip or neon flex fitted inside must itself be IP67 or IP68 rated and terminated with its own rated caps and gland. Design a fall or drainage path into the recess, and confirm the substrate build-up and floor loading with your installer before the groove is cut.

### DIMENSIONS

CN635 - Section 32.2 × 20mm - 26mm internal channel - fits neon flex up to 26mm

Cross-section — all dimensions in millimetres
