Working Temperature: -20-60 °C
Input Voltage: 3V(2*AAA Battery)
Radio Frequency: 2400-2483.5MHz
Modulation Method: GFSK

Transmitting Power: 6dBm
Control Distance: 30m
Standby Power: 15uA
Size: 80x80x19mm

Installation/ Dismantlement

Battery Installation

Please take the remote control and carefully press the battery cover and push it away in a downward motion. Install two AAA batteries, exactly match the negative (-) pole of each battery to the largest spring. Place the battery cover back and install tightly.

Warranty:

Warranty policy is valid if the product is used in accordance with the instructions and for its intended purpose.

Cleaning and maintenance:

To avoid scratching, the product should only be cleaned with a soft dry cloth. Do not use cleaning agents.

Disposal of your old product:

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2011/65/EU.

Please find out for yourself about the local separate collection system for electrical and electronic product.

Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.
