Material	Silicone
Finish	Opal
Diffuser	Integral opal silicone
IP rating	See product page
Mounting	Surface or recessed
Form	Flexible — bends on site
Weight	See product page
Warranty	7 Years

IN THE BOX

- 1 × silicone cover
- Cut to length

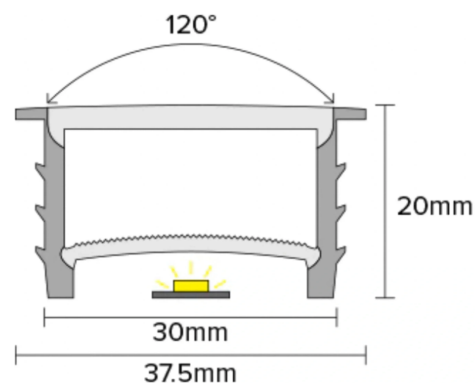

DESCRIPTION

A flexible silicone cover with a 30 × 20mm body and a 37.5mm top flange, taking LED strip from 8mm up to 20mm wide. The strip sits in the 30mm slot under an integral opal top, so the diodes read as a soft continuous line rather than a row of dots.

Fit it on the surface or recessed: rout a groove to suit the 30mm body, stick the strip into the slot, then press the cover home and hold it with adhesive or clips. Being silicone it follows curves, corners and stair edges on site, and cuts to length where the run ends.

Ordered by the metre, from 1m to 50m. The listing gives no IP rating, so check the product page before fitting it anywhere damp.

DIMENSIONS

Cross-section — all dimensions in millimetres
