

Silicone LED Strip Neon Flex Profile Cover 50 × 15mm

Flexible recessed silicone channel for LED strip up to 20mm, 56mm flange, bends on site.

SPECIFICATION

Profile type	Flexible silicone recessed channel
Section	50 × 15mm body · 56mm top flange
Length	Per metre, 1–50m continuous
LED strip size	Up to 20mm
Material	Silicone
Finish	White, opal face
Diffuser	Integral opal silicone
IP rating	IP20 — dry indoor only
Mounting	Surface or recessed
Form	Flexible, dual bend — shaped on site
Weight	See product page
Guarantee	7 years

IN THE BOX

- 1 × silicone channel
- One continuous run

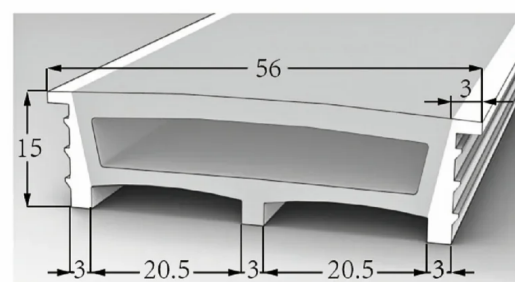

DESCRIPTION

This flexible silicone channel takes LED strip up to 20mm wide in a 50 × 15mm body. Rout a 50mm slot 15mm deep and the 56mm top flange sits on the face to hide the cut edge; the base is split into two 20.5mm slots by a 3mm rib, so it runs one strip or a pair.

Unlike aluminium it bends on site, following curves on ceilings, bulkheads and bar fronts. Cut it to length with a sharp blade, press the strip home and feed the run into the groove; where routing is not an option it can be surface-fixed with adhesive.

IP20 keeps it to dry indoor positions, not bathrooms or outdoors. Sold per metre from 1m to 50m as one continuous run.

DIMENSIONS

Cross-section — all dimensions in millimetres
